# **CRITERION I – CURRICULAR ASPECTS**

### 1.1 - Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The curriculum is basically designed by the parent university. Since most of our faculty members on Board of Studies of the University in concerned subject, they play key role in preparation and upgraation of the syllabus. The IQAC conducts meeting at the beginning of every academic session to guide the teachers in preparation of the teaching plan. Every subject teacher prepares teaching diary at the commencement of the academic session. Accordingly they design classroom modules, seminars, group discussions and other activities to deliver curriculum content in effective manner. Department wise syllabus completion reports are submitted to Principal and IQAC periodically The Principal and H.O.Ds supervise and monitor the teaching-learning process periodically through staff council meetings. Unit tests, Assignments, project work are conducted to evaluate performance of students. Additional classes are taken as and when necessary for completion of syllabus and clarifying doubts of students. Special focus being made on interactive learning through ICT tools for effective delivery of curriculum content.

### CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 - Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The institution believed in the practice of decentralization and participative management by giving responsibilities to each staff members in the institutional management. For this purpose several committees have been constituted by Principal to monitor and manage activities such as maintenance of infrastructure, library management, maintenance of disciplinary, examination and evaluation, environmental club etc. ? Staff members are also nominated to the College Development Council as Staff Representatives, so that they can participate and supervise the academic and administrative affairs. Student representatives are also nominated to several important committees. These practices promote a sense of involvement, responsibility and participation amongst staff and students. Thereby the college sets a good example of decentralization and participative management.

6.1.2 – Does the institution have a Management Information System (MIS)?

**Partial** 

### 6.2 - Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Curriculum Development	The curriculum is basically
	formulated by the Parent University.  However many of our faculty members are elected as members of the Board of Studies of the University in concerned subjects and hence plays key role in preparation, designing and up gradation of the curriculum by taking recourse to the analysis on the curricular activities in feedback collected from various stakeholders concerning the Institution.
Teaching and Learning	Principal in consultation with the IQAC and H.o.Ds design academic calendar at the beginning of the session. Each teacher prepares teaching plan and adopts participative and student centric teachinglearning practices with the help of ICT tools. Classroom seminars, group discussion are conducted on regular basis to involve the students in learning process.
Examination and Evaluation	The Continuous Evaluation system was adopted. Accordingly the Institution constituted an Examination committee which prepares a timetable for conducting unit tests and model university examination. Respective subject teachers evaluate the answer sheets and publish the results. The results will be discussed with Principal at Staff Council Meeting. The Advanced Learners and Slow learners are identified on the basis of student performance in these tests. Further, the student performance is also evaluated through assignments, class room seminars and projects. At the end of each semester, University conducts examination and the answer sheets are evaluated at the spot valuation centres appointed by the university.
Research and Development	Since our college is an undergraduate institution. Research activities in formal manner are not in practice. All our faculty members awarded Ph.D degree in respective disciplines and most of our faculty members are recognised as Ph.D supervisors by the University. They are actively guiding several Ph.D scholars. One scholar awarded Ph.D degree under the guidance of Principal and 4 students awarded Ph.D degree under the guidance of one senior faculty member.

Infrastructure / Instrumentation  The College has a wellstocked library with all necessary reference books, text books and journals. The College computer lab is equipped with adequate number of computers, Internet, Xerox machine, printers. 04 class rooms are designed as smart class rooms with necessary ICT tools. The Physical education department had all necessary sports equipment to train up the students in sports and games. Adequate number of classrooms, furniture, office rooms, Principal Chamber is existed.  Human Resource Management  As our institution is a Granted one, full time faculty members and nonteaching staff are appointed by the State Government in accordance with due process. After the appointment they are placed under the control and supervision of Principal and Management. They are given salaries, allowances, promotions, leaves and holidays as per the service rules of the university and government. The institution believes in decentralisation and accordingly distributes responsibilities to each staff member. They are appointed as members of various committees to look after academic, administrative and student welfare activities. A grievance cell also constituted for staff to ventilate their problems and difficulties, if any. The principal and management always adopts an humanitarian and sympathetic approach in solving their difficulties.  The institution has collaboration with the Yashwantrao Chavan Maharashtra Open University (CHMOU) to conduct study centre for B.A and B.Com Open university courses. The institution has entered an M.O.U with S.P.College of Law, Chandrapur for spreading of legal literacy, waveness on social and economic issues, student and faculty exchange.  Admission of Students  The admission of students is made as per the rules and regulations of the Parent University and Government of Maharashtra. Online enrollment process has been adopted. Admission is also given online.

#### 7.2 - Best Practices

#### 7.2.1 – Describe at least two institutional best practices

Best Practice (I) (1) Title: Access to Higher Education Programme: (2) Goal: The Institution has designed and implementing a programme known as "Access to Higher Education" with a view to attain our institutional vision and mission of promoting equal opportunity to the dominant rural and tribal students of the region to get access to the higher education. As the institution is situated in a rural and tribal area and the economic and social constraints prevent the predominant rural and tribal people in the locality from getting their children admitted in higher educational institutions, the institution through this programme aims at creating a conducive social, economic and educational ambiance for promoting accession of higher education to the rural and tribal students. (3) The Context: Higher education plays a pivotal role in transforming the lives of rural and tribal people. However, the social and cultural settings in rural and tribal areas make the people reluctant to admit their children/wards to the higher education, more particularly girls. They generally think of marrying girls at early age and to stop their education after marriage. This situation operates as hurdle for girl students to pursue higher education. Moreover, the economic constrains in rural and tribal regions also make the family elders to force their boys and girls to work in agricultural fields and in nearby factories rather than sending them to higher education institutions. They generally think that higher education is very costly affair and not reachable to them. Lack of understanding about value of higher education and its contemporary importance scholarship and other facilities provided by government also make the higher education still a distant dream for rural and tribal students. (4) The Practice: Our Institution has launched the programme of "Access to Higher Education" by involving all teaching staff, non-teaching personnel, students and alumni to create a conducive social, economic and educational ambiance to motivate the rural and tribal students, more particularly girl students to join in the mainstream of higher education. The following are some of the significant steps undertaken by the institution as a part of the "Access to Higher Education" programme: ? During every academic session, the college undertakes surveys in neighboring

```
villages and tribal areas to identify and analyze the problems of rural and
   tribal students in pursuing higher education as well as other social and
economic issues. This will help the institution to comprehend the issues and to
 bring them to the notice of governmental and non-governmental agencies for
  taking appropriate measures to provide higher education facilities to these
    marginalized sections, especially to the tribal girl students. ? After
   analyzing the issues, the college team consisting of a team of teachers,
students and alumni visit the villages and providing counseling to the village
     and family elders, parents and students regarding the value of higher
 education, the available facilities and the need for joining the students in
 higher education in contemporary society. Our students also disseminate the
value of higher education for students, especially girl students through street
   play and dram etc. These efforts provide a suitable social ambiance for
  promoting access to higher education. To address the economic issues which
   prevent the rural and tribal students to continue higher education, the
institution has approached corporate sector to provide scholarship facilities
   to the SC/ST/OBC students in addition to the scholarship provided by the
      government. The college also taken initiative for providing hostel
accommodation for tribal students, specially for girls students in government
run hostels by interacting with concerned authorities. ? To address the problem
  of students, who are interested to pursue higher education, but could not
  attend the regular classes in college, the institution made a link up with
 Yashwantrao Chavan Mahrashtra Open University (YCMOU), Nashik for opening a
  study centre for B.A and B.Com courses through Open University system. (5)
Evidence of Success: ? The practice has created a suitable social, economic and
educational environment to motivate and attract more students to pursue higher
education. ? Our efforts to create awareness amongst parents and elders on the
 value of higher education, its necessity in contemporary world, scholarships
 and support schemes to students and the key role of higher education in the
  development of region and families, helped the villagers to understand the
importance of providing higher education and motivated them to join their wards
 in higher education institutes. There has been a significant increase in the
number of rural and tribal students, more particularly girl students, enrolled
    in the higher educational institutions in the area. ? As as part of the
 economic support, the institution has approached corporate sector to provide
scholarship facilities to the SC/ST/OBC students in addition to the scholarship
provided by the government and succeeded in getting financial assistance from
   Hindustan Petroleum Corporation Limited, west zone, Mumbai. We disbursed
Rs.1,47,000 to students through HPCL in this regard. (6) Problems Encountered
and Resources Required: Social and cultural inhibitions prevalent in rural and
   tribal areas as well as economic opportunities gap provides a hurdle for
    successful implementation of the programme. More help and resources are
required from governmental and non-governmental agencies for implementing the
programme in a more successful note and for the betterment of the lives of the
   students of marginalized sections. Best Practice (2): Title: Extension
     Activities : Goal : To sensitize the students about the contemporary
 socioeconomic problems of the rural India and to make them involve in social
service and community development works as well as to train up them as public
spirited and responsive citizens, the college has been focusing upon extension
     activities. Further the Institution committed to discharge its social
   responsibility in matters of understanding and addressing the needs and
requirements of the local community through extension activities. Context : As
value oriented education is the need of the hour, there is every need to make
the students involve in relevant extension activities. There is every need to
bring students in touch with the ground realities and challenges that exist in
 Indian society and to prepare them to undertake social service and community
  oriented activities, which will promote character development, leadership
   qualities and personality development of the students. The Practice : The
```

institution encourages the participation of students and faculty in extension activities and encourages their participation in N.S.S. and other extension activities. The following are some of the significant programmes undertaken by the institution as practice of student involvement in community oriented programmes. ? Organizing special camps in remote rural tribal areas with a view to make the students to keep in touch with ground realities exists in villages and to make them involve in rural tribal development activities. The NSS unit has organized 01 special camps during current year ? The NSS unit is actively engaged in conducting awareness programmes and education programmes with a view to educate the villagers and rural tribal populace. ? The Institution also organized health check camp in villages with the help of Government and private medical personnel for the poor people. ? Free veterinary checkup camps have been organized by college during the current year ? Blood donation programme is organized and 150 students have participated in the camp and donated their blood. ? Aids awareness programmes and community awareness programmes through rallies and campaigns have been organized.? Our college Environment Club also undertake tree plantation and other eco-friendly activities every year. ? The institution take the help of NGO?s such as health department and Ambuja Foundation etc. in undertaking several extensions activates. ? The NSS unit has adopted a village Bibee and looks after the development of the village. ? Cleanness campaign has been organized at village to improve village sanitation and the latrines in the village have been repaired and painted. Inspirational quotes have been written on them. ? The women Study Centre of the college conducted a survey in village on women empowerment through self-help group. ? The college has involved students, staff, social organizations, alumni in the successful conducting of N.S.S activities. Evidence of Success: The efforts of the institution in the field of extension activities became very fruitful. The institution has acquired a reputation of its own in the sphere of its NSS activities, works of community development, Population Education Club, Women Study Centre and Environmental Awareness etc. Much change has been noticed in the attitude of the students in response to the social problem after their participation in the activities. These programmes served as a motivation to the students and generated amongst them in active participation of community development activities. This has been evidence in more and more voluntary participation of students in community development activities. Problems encountered and Resources Required: To implement the practice in a successful manner, the major problems encountered are tight academic schedule in semester pattern for the students. Due to this hectic academic schedule in a given time, some students though interested become reluctant to participate in the activities. Meager financial resources are another problem for undertaking more activities in this regard.

#### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

In pursuance of our institutional vision and mission of promoting equal opportunity to the dominant rural and tribal students of the region, we have undertaken certain measures which acquired distinctiveness to the performance of our institution. During every academic session, the college undertakes surveys to identify and analyse the problems of rural and tribal students in pursuing higher education as well as other social and economic issues. This will help the institution as well as governmental and non governmental agencies to comprehend the issues and to take measures to provide higher education

facilities to these marginalized sections, especially to the tribal girl students who could not pursue higher education to social reasons. Our efforts to create awareness amongst parents and elders on the value of higher education, its necessity in contemporary world, scholarships and support schemes to students and the key role of higher education in the development of region and families, helped the villagers to understand the importance of providing higher education and motivated them to join their wards in higher education institutes. We disbursed Rs.1,47,000 to students through HPCL in this regard. Moreover, the extension activities undertaken by the institute make the students to study, identify, analyse and responds to the problems of the local community. These proud endeavors and performance of ours in tune with our institutional vision and mission, therefore, acquired distinctiveness to our Institution in the sphere of higher education.
